

LIGHTNING PROTECTION SYSTEM

STRIKE PAD

Strike pads are used where it is not possible or preferred to attach conductors on the roof or side of the building. Applications like ware houses or Multi-story parking garages, where the conductors are laid into the tarmac, or the side of the building, but not possible to run the conductor outside.

| DIAMETER | HEIGHT | MATERIAL | E-CODE |
|----------|--------|-----------|--------|
| 120 | 20 | ALUMINIUM | SPA120 |
| | | COPPER | SPC120 |
